

I want to tell you that I am for being able to choose what channels I want when I have my digital cable packages. I do not want to have to have and pay for channels that I will never watch. I do not speak spanish thus should I pay for those channels? I do not like country music should I pay for two channels? NO. Home shopping give me a break I have atleast 6 channels. I do not want that stuff or pay for it. Please allow cable subscribers to choose what they want prices are already too high for not watching more than half of what I recieve. Thank you.
